ANNOUNCES COMPLETION OF 3-YEAR PLAN

AGRICULTURAL PLAN EXCEEDED -- Trybuna Ludu, No 317, 17 Nov 49

The over-all completion of the Three-Year Plan was reported by President Bierut at the third plenary meeting of the Central Committee of the United Polish Workers' Party.

The value of 1949 production will be 226 percent of the 1946 production and 174 percent of prewar production. The value of per-capita industrial production in 1949 will be 24 percent higher than before the war. The Three-Year Plan for agriculture has also been exceeded; cultivated areas, total crops, and per-hectare yields of grain and industrial crops have exceeded the estimates. The plan was achieved in livestock husbandry, and, in some cases, even exceeded. The value of agricultural production increased 68 percent during the last 3 years; the per-capita production exceeded the prewar level by 12 percent.

The participation of state farms in agricultural production increased from zero in 1946 to 7.9 percent in 1949. The first 170 farm work cooperatives have been established.

Rail and automotive transportation enterprises and communications have also exceeded the plan.

The achievement of the Three-Year Plan has been responsible for marked changes in the social structure: unemployment has been eliminated and the percentage of wage earners doubled. Living standards have been substantially improved; per-capita consumption of food has already greatly exceeded the prewar level. Real wages are twice those of 1946 and 22.6 percent greater than in 1938.

The socialized sector of the national economy has been strengthened and is responsible for 90 percent of the industrial production. The socialized sector handles 93 percent of the wholesale trade and 60 percent of retail trade.

FARMS TO GET 830,000 TONS OF FERTILIZER -- Trybuna Ludu, No 317, 17 Nov 49

The Ministry of Agriculture and Land Reform has worked out the plan of supplying fertilizer for the spring sowing campaign.

The allotment of fertilizer for peasant farms, state farms, agricultural schools, and experimental stations will be 830,000 tons for the 1950 spring sowing, 145,000 tons more than in 1949. Of this allotment, 608,000 tons plus 58,000 tons of lime will be distributed to peasant farms, cooperatives, and growers of industrial crops under contract by the Peasant Self-Help organization in charge of distribution. Sugar-beet growers will receive fertilizer through the sugar mills. The period for filing applications for fertilizer expires on 30 November 1949.

PLAN STATE FARM IMPROVEMENTS -- Trybuna Ludu, No 317, 17 Nov 49

The State Farm Administration in Lodz had allotted 6,600,000 zlotys to insure safe operations and improve sanitation on state farms. Agricultural machines will be equipped with safety devices and the workers will be provided with rubber boots, glasses, safety masks, and first-aid kits; bathhouses, showers, and dressing rooms will be installed on the farms. Fire brigades and sanitary squads are now being trained on all state farms.

TO BUILD MODEL SILOS -- Sozialistische Volkszeitung, No 33, 7 Sep 49

The Rural Building Cooperative in Poland has allotted 42 million zlotys for construction in the Lodz area of 14 model silos with a capacity of 250 tons each.

MAZURY LAKES FISH SENT TO CITIES -- Rzeczpospolita, No 315, 15 Nov 49

During October, the fish catch on the Mazury Lakes amounted to approximately 200,000 kilograms. After the market demands of the local area were satisfied, the surplus was sent to Warsaw, Lodz, and other large cities.
